

COMMANDER NAVY REGION SOUTHEAST ENVIRONMENTAL POLICY

Commander Navy Region Southeast (CNRSE) is committed to enabling warfighter readiness in a manner that is protective of human health and the environment. This commitment extends to all CNRSE subordinate and tenant commands and all activities operating onboard any CNRSE installation.

CNRSE mission execution requires daily actions in our natural environment. Thus, each employee, whether military, civilian or private contractor, regardless of rank or grade, is responsible for performing their duties in a manner that protects the environment, prevents pollution and exercises proper stewardship of our natural and cultural resources.

We are committed to:

- Comprehensive environmental protection and continual environmental process improvement.
- Focusing on high impact issues.
- Early introduction of environmental protection, pollution prevention and stewardship of natural and cultural resource considerations into the planning stages of all activities.
- Meeting environmental challenges with innovation, sound stewardship and open communication.
- The success of our people and mission while maintaining full compliance with applicable Federal, State, local, Department of Defense and Navy laws, regulations and policies.
- Regularly scheduled self-evaluation of the effectiveness of CNRSE's environmental management system to ensure that established objectives and targets are met.
- Promulgation, implementation and maintenance of CNRSE's environmental policies ensuring effective communication to employees and stakeholders.
- Fostering cooperation with surrounding communities by publicizing environmental initiatives and supporting community-based environmental programs.
